

Minji Jung

JUNIOR, DEPARTMENT OF ARTIFICIAL INTELLIGENCE, YONSEI UNIVERSITY

✉ mjjung23@yonsei.ac.kr | [📱 mjxjung](#)

Education

Yonsei University

B.S. IN ARTIFICIAL INTELLIGENCE

- GPA: 3.69 / 4.3 (Overall), 3.6 / 4.3 (Major)

Seoul, S.Korea

Mar. 2023 - Expected Feb. 2027

Research Interests

- Large Language Models (LLMs):** MoE, tool-use / function-calling; using LLMs as reliable building blocks for downstream agents.
- Agent Systems:** multi-agent (LangGraph style); protocols: MCP, A2A.
- Automation & Tooling:** building agent / RAG pipelines with n8n and Apache Airflow.

Honors & Awards

YONSEI

2025 **2nd Place**, YBIGTA Newbie Project (Winter 2025) [📱 GitHub](#)

among 5 teams at the **Yonsei Big Data Club Conference**

Seoul, S.Korea

2025 **Departmental Honors Scholarship**, AI-Business Convergence (Advanced Major)

by the Department of Artificial Intelligence, Yonsei University

Seoul, S.Korea

Experience

Yonsei Big Data Club (YBIGTA)

EDUCATION COMMITTEE MEMBER

- Designed / graded onboarding assignments for cohort 27; facilitated weekly sessions.
- NLP / CV Paper Reading: surveyed recent works and led discussion notes.

Seoul, S.Korea

Jan. 2025 - PRESENT

Industry-Academia Collaboration (DTOL × YBIGTA)

RESEARCH ENGINEER (STUDENT COLLABORATION)

- Natural-language-to-SQL pipeline: query parsing, SQL generation, metric design & evaluation.
- Table Reasoning-oriented prompting; RAG with related SQL preserved in Vector DB.

Seoul, S.Korea

Apr. 2025 - Aug. 2025

Course & Personal projects

ResearchAgent — YBIGTA Summer Project (Team) [📱 GitHub](#)

AI-DRIVEN POKÉMON CARD GENERATOR

- Built an AI pipeline for novel Pokémon cards: LLM-driven concept design → structured specs → text-to-image generation.
- Designed multi-stage prompts and asset flows for creative yet consistent card outputs beyond fixed-template automation.

Seoul, S.Korea

Aug. 2025

JeMeChu — Yonsei Big Data Club (Team) [📱 GitHub](#)

LOCAL RESTAURANT RECOMMENDER (RAG)

- Built a restaurant recommender for Hapjeong / Seogyo-dong, matching user NL queries to restaurants via semantic search.
- Implemented a LangChain-Pinecone RAG pipeline to retrieve reviews and generate natural-language explanations.

Seoul, S.Korea

Feb. 2024

KINI — RC Creative Platform (Nexon Korea sponsored, Team) [🔗 kini.vercel.app](#)

COMMUNITY DELIVERY WEB APP

- Built a community delivery web app for aging towns, with user flow and UX tailored for elderly accessibility.
- Fetches categorized data from Firebase and developed reusable React pages.

Seoul, S.Korea

Apr. 2023 - Nov. 2023

Extracurricular Activity

AGI Agent Hackathon 2025	Seoul, S.Korea
PARTICIPANT	2025
• Prototyped agentic workflow using UPSTAGE Document Parse and Information Extract APIs.	
Yonsei Computer Club (YCC)	Seoul, S.Korea
MEMBER	Aug, 2023 - PRESENT
• Studies: n8n (25-2), C / C++ (25-1), React (24-1), Figma (23-2).	
AI Band Club (ABC)	Seoul, S.Korea
VOCAL	Aug, 2023 - PRESENT
• Performed as main / backup vocal (23-2); Band's first solo concert participation.	

Skills

Programming	C, C++, Python, Web programming languages (HTML, CSS, React), MATLAB, SQL
Tools	Figma, Docker
Languages	Korean: Native, English: Proficient (TOEIC 980 / 990)
Hobbies	Watching movies, Singing karaoke, Reading books
